As a Master Level Scholar at Aspire Scholar Academy, I recognize what a great opportunity it is to have a mentor giving individualized attention to help me reach my scholarship goals, and that the mentor is not getting paid but is investing significant amounts of voluntary time to help me progress. In order to show my mentor respect as well as to progress as a scholar, I agree to submit to the instruction and direction of my mentor, come prepared to each class with the assignments completed to the best of my ability, and to do my best quality work in this class. I understand that if I am not able to fulfill this commitment, I may be asked to withdraw from the class (no refund of tuition) and try again at a later time when I am ready. In this way the learning environment is protected for everyone.

I witness that I have prayerfully considered this commitment with my parent mentor and feel that I am able to keep this commitment from this point on. I have carefully looked at my schedule and other commitments and have determined that I have sufficient time and energy to commit to this leap in scholarship. I have the time to dedicate to seek greater depth in Master Level classes while maintaining balance in my life and education.

Congratulations on your interest in taking your education to a new level of progress!
